

Certifications | Internships

Geekster | Geekster Coding Bootcamp

- Successfully tackled DSA and coding challenges on the Geekster platform via Hackerrank
- Contributed to various projects including BharatPe Clone, Movie-App, CodePen, and E-commerce, showcasing proficiency in HTML, CSS, JavaScript, Tailwind, Java, and React.
- Demonstrated strong problem-solving skills and algorithmic thinking through Hackerrank challenges.
- Engaged in Geekathons, collaborating effectively in dynamic coding environments to deliver innovative solutions.

Projects

CodePen App [\[Github-Link\]](#) [\[Hosted-Link\]](#)

- CodePen Clone project is a dynamic web application that replicates the functionality of CodePen, allowing users to write, edit, and share HTML, CSS, and JavaScript code snippets directly within the browser. Leveraging the power of React.js for building the user interface, Redux for state management, and Firebase for backend services, this project provides a seamless and collaborative coding environment for developers.
- Intuitive code editor with syntax highlighting and auto-complete functionality for HTML, CSS, and JavaScript. Live preview pane that updates in real-time as users type code, enabling instant visualisation of changes.
- **Tech Stack:** React, React Router, Redux, Firebase.

Ecommerce website [\[Github-Link\]](#) [\[Hosted-Link\]](#)

- The React E-Commerce Website project is a comprehensive online shopping platform designed to provide users with a seamless shopping experience. Built using React.js and incorporating various features such as product listing, add to cart, add to wishlist, filtering, carousel, and user authentication, this project aims to replicate the functionality of a real e-commerce website.
- User Authentication: Implement user authentication functionality to secure user accounts, allowing users to sign up, log in, and access personalised features such as saved carts and wishlist. Product Listing: Display a wide range of products across different categories, allowing users to browse and explore various items.
- Tech Stack: React, Tailwind CSS, React Router, Redux, Firebase.

Skills

- **Computer Language** : Java, JavaScript
- **Frameworks / Libraries** : ReactJS,Redux Toolkit, Html, CSS, TailwindCss
- **Additional Courses** : Data Structure and Algorithms
- **Tools & Technologies** : Git, VS code

Education

Year	Degree/Examination	Institution/ Board	CGPA/Percentage
2023	B.Tech	ITM Gwalior	8.1 CGPA
2019	12th	MP Board	5.4 CGPA
2017	10th	CBSE Board	7.6 CGPA

Achievements and Co-Curricular Activities

- **Hackathon 1.0:** - RGPV gladly awards you a Certificate of Participation for participating in State Level Hackathon 1.0
- Led and mentored a team through the exhilarating Geekathons, igniting synergy and nurturing collective growth among junior cohorts.
- Top performers Received 5 stars on Hacker-Rank in the problem-solving assessment.
